Present: Marybeth Buechner, Dena Chubbic, Anne Danenberg, Thomas Greene (had to leave early), Amanda Hamilton, Kelly Irwin, Anne Licciardi

The committee looked at the desired outcomes associated with the 2008-2009 goals and added additional measures where it seemed appropriate.

A discussion took place around the language “first year student” and “first time student” and what is measured; also what we learn from “retention to census”. It was decided that additional input was necessary to determine which measure should go forward.

A discussion about the varied definitions of basic skills took place. Marybeth noted that Basic Skills can be defined as Pre-Collegiate, Pre-Transfer, Pre-Transfer including ESL, and Study Skills and HCD. While it would be nice to use one definition (one set of classes to measure outcomes), the PRIE Office files reports to organizations using required definitions that may not be consistent and may not be the one most helpful to SCC.

Next meeting: Friday, March 27, 9 – 10:30 am in City Café #2
