Introductions round table:

- History of past committee

Brainstorm thoughts:

- Do we have a better system of tracking students?
  - Yes, but rudimentary. Need to build longitudinal focus.
- Do we have access to quantitative data?
  - Yes, but data should be updated. Indicators insufficient.
- How were focus groups developed?
  - Random sampling of 250 students with minimum of 3 units
    - Second random sampling was taken when first did not produce enough participants
  - Viewed approximately 30 minutes of the first Student Focus group
    - Content of focus groups should be kept confidential at this point

Homework:

- Review Student Focus Group footage (to be posted online for viewing)
  - Identify themes within footage to make into vignettes
    - Vignettes to be later disseminated to other Community Colleges

Next meeting: October 2, 2009, 11:00 AM – Noon, Student Center Room 103
