Verbs Requiring Psychomotor Outcomes

Perception: Involves sensitivity to a situation, object, or relationship that normally leads to action.

Preparation: Involves readiness to perform.

Orientation: Involves the discovery and/or decision of the response(s) which must be made.

Pattern: Involves a learned response that is habitual; presentation is smooth and the presenter has confidence in his ability.

Performance: Involves a complex motor action, carried out with a high degree of skill. (May be thought of as "motor synthesis".)
